## EXPERIENCE

### Infosys, Senior Designer - Experience Design

Oct 2018 - Present | Chennai, India

I currently design B2B, B2C - Data Visualization applications for the French and Australian Tennis Grand Slam tournaments, which led to an increase in viewership of 11.2M. I contribute innovative ideas to improve the product. I work in an agile team. I maintain the libraries of various groups of components. . I manage and train junior designers. I also actively operate with the pre-sales teams for designing the MVPs.

### SRM Tech, UI/UX Designer

Jan 2017 - Oct 2018 | Chennai, India

I worked on an exclusive, research-informed system. The project involves working with stakeholders to determine new features, user flows, designing wireframes, prototypes, visual design, and micro-interactions. I designed presentations and print materials for marketing and sales teams.

### Seaant, Software Engineer III

Apr 2015 - Dec 2016 | Chennai, India

I worked with a product that provides a fully managed Database-as-a-Service (DBaaS) solution. I have developed a lightweight application interface with tons of dynamic functionalities using HTML5, CSS3, and jQuery.

## EDUCATION

### Bachelor of Engineering in Computer Science

Aug 2010 - May 2014

Jayam College of Engineering and Technology,  
Anna University, Chennai, India
